February 2019 ICM Connection

Sunday February 10th is Safe Families Sunday! The goal of the Safe Families program is to keep children safe and families intact during a crisis. Homelessness and medical emergencies are the most common reasons that parents request a hosting. The mission of ICM is to glorify God by restoring and empowering families and our Safe Families program is just one of the ways we feel called to work toward this mission. If you are interested in learning more about Safe Families and ways you could become involved, please call our office at (217) 355-4446 or email familycare@icmfamily.org !
